PREMIER CLASSIC YACHT VARNISH ref 53L644

A quality traditional high gloss finish. flexible with excellent UV and scratch resistance. Good flow for easy application. Suitable for interior & exterior in most industrial/commercial and marine environments, where 2 coats give optimum performance.

PACKAGE SIZE	1 Litre
COLOUR	Clear
FLASH POINT	Above 32°C
DRYING TIME @ 20°C	Surface Dry: 4 - 6 hrs
VOLUME SOLIDS	48% (+/- 2%)
RECOMMENDED W.F.T.	120 microns
RECOMMENDED D.F.T.	58 microns
THEORETICAL SPREADING RATE	8 Sq. Metres/Litre
THINNERS	No. 2
SHELF LIFE	12 months
V.O.C.	395 g/litre

Surface Preparation

Ensure surface is free from rust, moisture, oil or other surface contamination.

When applying over previously varnished wood, ensure the surface is clean and sand smooth. After sanding, ensure all sanding dust is removed and wipe down with thinners. If the previously varnished wood is in poor condition then we recommend removing all previous coats.

When applying to bare wood, sand smooth and remove any dust and wipe down with thinners. The first coat may be thinned by 10% using Thinners No. 2.

Application

Brush or Roll and for best results lightly sand between coats using a fine 320 – 400 grade/grit paper.

Do not apply in temperatures below 5°c and ensure that the substrate temperature is above 5°c

Avoid applying late in the day as temperatures drop, to allow the varnish to dry without the risk of condensation forming. Condensation will result in a loss of gloss finish.

Health & Safety

Refer to M.S.D.S. prior to use
Provide adequate ventilation
Prolonged skin contact
Inhalation of vapour must be avoided
Eye contamination - Flush with eyewash or warm water for 10 minutes
Clean hands after use
